

Pupil Premium – Impact 2015

Disadvantaged 2015

- Disadvantaged student group achieved 40% 5A*-C (33% with EM) and the non-disadvantaged students achieved 73% A*-C (67% with EM). This gap can be partly attributed to the high proportion of the group of 51 student coming with prior attainment below level 4. The gap on PA shows that within the disadvantaged group only 25/51 (48%) of students had level 4 in English and Maths compared to 64/88 (72%) in the non-disadvantaged group.
- The gap in progress in English and Maths for the disadvantaged students was less significant than the attainment gap. In English, 3+ levels progress was 56.2% for disadvantaged compared to 66.1% for the whole cohort. In Maths 3+ levels progress was 63.3% for disadvantaged compared to 77.8% for the whole cohort.
- In year data for the 5A*-C EM attainment gap indicates a closing of the gap with projections of less than 20% for 2016 and less than 10% for 2017.
- The progress gap for students making at least 3 levels in English and in Maths is also projected to be closing with a projected gap of less than 10% for both 2016 and 2017.
- The education endowment foundation projected the widest gap would be shown in 2015 and projects a narrowing for the subsequent years up until 2018. This is in agreement in terms of trends to our own internal tracking, however the gap is and remains smaller in reality than in the EEF projections. EEF projected gaps of 7.9 in APS per entry in 2015 we achieved a gap of 1.5 with both disadvantaged and non disadvantaged groups outperforming the projected scored. In 2016 the projection of for a gap of 3.8, we are forecasting a gap of 4.6 with both groups significantly outperforming EEF projections. In 2017 the projected gap is 3.2, we are forecasting a gap of 1.4, again with both groups outperforming their projections.

Year	EEF projection Disadvantaged	Actual/school forecast disadvantaged	EEF projection Non-disadvantaged	Actual/school forecast Non-disadvantaged
2014	30.7	35.3	34.7	36.8
2015	25.9	34.3	33.8	40.1
2016	26.2	34.0	32	38.6
2017	28.9	37.1	32.1	38.5
